Subject: Join Us for the EducationForClimate Day 2024 - November 28!

Dear [...],

We are thrilled to invite you to the EducationForClimate Day 2024, the flagship event of the EducationForClimate community, taking place on **28 November 2024 from 9:30 to 18:00 CET online**.

How to prepare for the future?

We are excited to welcome you for informative discussions, inspirational showcases, policy debates and community actions around **climate resilience**.

The event is open to learners of all ages and learning levels, educators, trainers, education stakeholders, institutions, industry professionals, NGOs, and anyone passionate about the green transition and sustainable development.

What's in it for you?

Seven sequential thematic sessions in participatory format covering a broad range of climate education issues & **one** community networking café.

1. **Curious about how education and training systems evolve across the EU?** Get fresh insights from the launch of the 2024 Education and Training Monitor and discuss findings, policy implications and learning strategies.
2. **Do you feel alone in climate education?** Bring your ideas to life to connect around challenges and collaborate on new solutions for the community and its actions during the Community Agora.
3. **Interested in policy & research around green education transformation?** Review the COP29 together with policy officers, stakeholders, and educators to understand its impact.
4. **Needing some refreshing inspiration for how to implement green education actions?** Learn how (g)local learning communities are pioneering sustainable education practices and make their environments resilient.
5. **Focusing on green competence development?** A showcase of concrete learning scenarios around the European Sustainability Competence Framework (GreenComp) is awaiting you.
6. **Wanting to learn about science-driven climate education initiatives?** Discover selected community examples and their stories of what they do in practice.
7. **Eager to get to know youth recommendations on AI and climate change?** Join the Youth Climate Lab session to discover a learning scenario and practical recommendations.

What to do now?

- [Check the programme page & register there](#) – *registrations stay open throughout 27 November 2024*
- [Spread the word via our easy, re-usable communication toolkit](#). *It only takes a minute!*
- If you have any questions or need help, [we are just a click away on the platform](#).

Best wishes,

--- The EducationForClimate Secretariat
