Reporting Climate Change

Module 1

TOPICS FOR JOURNALIST

Remark: *Journalists & Academics can use examples from their countries related to the chosen topic and/or surrounding area(s) if they have expertise and experience within it. Also, there is no limit even to the Mediterranean region if your expertise and experience is even higher. Please, chose one topic and send the title of the topic on professor/tutor email:*

sabahudin.hadzialic@uninettunouniversity.net by Monday, 22.07.2024 at 7 p.m. (time of Rome/GMT+2, please check your local time). Other details about your obligation re essay(s) are within other enclosed document titled: “Essay 1-16.07.2024”. Chosen topic should be submitted for the review until Monday, 05.08.2024 at 7 p.m. (time of Rome/GMT+2, please check your local time).

Essay comes as outcome of watched lecture and followed multimedia, bibliography and siteography of the Part I (Lessons 1 to 5) – **“What is climate change”**):

1. Climate change and vulnerability predictions and assessments (human and natural systems).
2. Biodiversity and Climate change (lost hope or awakening of the possibilities)
3. Climate change impact on human life (knowledge or fake news: literacy vs. illiteracy).
- 4.
