

Join the Education for Climate 2025 Annual Call!

Are you working on a project that brings climate education to life? 🌱 The **Education for Climate Annual Call 2025** is open – and we're looking for inspiring green education actions from across Europe!

This year's call invites contributions in **three key areas**:

- Schools as living labs for sustainability
- Integrating the GreenComp framework within STEM teaching and learning
- Empowering citizenship education

Selected practices will be featured during **Education for Climate Day on 23 October 2025**, helping to scale your impact and inspire others across the European Education Area.

✅ Who Can Apply?

You're eligible if your project:

- Is based in any **European Education Area** country (EU27 + Iceland, Liechtenstein, North Macedonia, Norway, Serbia, or Turkey)
- Has been **started, is ongoing, or was recently completed** (within the last 5 years)
- Includes **concrete implementation actions** that have already taken place

📧 How to Submit

Submit your project by **15 September 2025** 📅 using the forms on the official call page: education-for-climate.ec.europa.eu/community/call-2025

Let's shape the future of climate education together!
